

Paying for it

- Hire neighborhood block watchers
- Build a strike force to respond quickly to emergencies like hurricanes, earthquakes and tsunamis
- Hire more medical and nursing home workers to build on our world class medicine
- Train and hire thousands of mental health workers to treat the hundreds of thousands of U.S. soldiers suffering from the wars.
- Have state owned lending like they have in North Dakota. Banks, not casinos.
- Hire more farmers to do organic farming using local resources each city
- Work on mass transit like electric powered trolleys in Take over the auto industry and build fewer cars. out nuclear plants. No new Fukushima.

- ◆ Put a tax on buying and selling on the stock market. A one penny on a hundred dollar stock sales tax will bring in \$100 billion.
- ◆ Have a property tax on stocks and bonds worth over \$100,000. Put a "Robin Hood" tax on stock and bond sales.
- ◆ Raise gas taxes gradually
- ◆ Add a sales tax to products based on how hard it is to recycle or destroy the used item.
- ◆ Raise the tax on corporations. (They're sitting on \$2 trillion in cash.)
- ◆ Bring the troops home from the wars and the bases.
- ◆ Stop foreign aid to human rights abusers like Israel and Egypt.

Replace the Capitalist Casino with Something that Works for All of Us

- Wall Street has been restored with \$13 trillion in loans and guarantees, but Wall St. has failed to bring back jobs. Private enterprise can't or won't do it. We need public enterprise. We need the government to fund workplaces that will hire millions of people directly and permanently in full time jobs.
- Here are some ideas:
 - Build "green" houses and apartments. Retrofit older homes.
 - Hire workers to remove lead and other pollutants
 - Put public gyms all over the place to fight the obesity and diabetes epidemic. Double the number of parks and playgrounds.
 - Hire people to put free Wi-Fi in every U.S. city
 - Create jobs for teenagers: leaf raking, snow shoveling, baby sitting, playground assistance
 - More adult day care and assisted living centers
 - Make college free and hire more professors
 - Start a crash program for solar and wind energy. Phase
